

**HOW TO LOVE AN ANGRY WOMAN.** That's the title of a workshop for men that Phil McCrillis and Dr. George Simons have created and are now presenting through the Hidden Valley Center in Soquel. The "angry" in the title is purposely provocative. In truth the one-day, 12-hour workshop is about communicating with the woman in your life. I attended it two weeks ago and can recommend it totally. There's no est or Stirling gimmicks, just hard work on how to get and receive each others' messages. Ask me about it the next time we see each other, or call HVC in Soquel at 476-4167. It's inexpensive, it doesn't take anything away you already know, it just adds a lot.
